Diesel Generators: Uninterrupted Power When You Need It

- Trusted partner for Greaves Cotton Limited
- Capacity from 5 kVA to 2250 kVA
- **Reliable Backup Power** during outages
- **Fuel Efficiency:** Longer run time with lower consumption
- **Durability:** Built to withstand tough conditions

Key Benefits:

- Immediate power restoration in critical scenarios
- Ideal for **industrial, commercial, and residential** needs
- Supports **24/7 operations** for businesses

Applications:

- Hospitals & Data Centers
- Construction Sites
- Small Businesses & Homes
- Events and Emergency Services
- and More

Solar Rooftop Solutions: **Empower tomorrow - start with solar today**

Scalable Power

From 1 kVA to Megawatts, fit your energy needs.

Cost Savings

Slash energy bills and carbon footprint.

Incentives

Government subsidies make transition easier.

Solar Water Heaters: Efficient and Eco-Friendly Hot Water

Cost-effective

Save on electricity bills with solar heat.

Low Maintenance

Durable with minimal upkeep required.

Versatile

Suitable for homes and businesses.

Solar Fencing: Secure Your Property with Solar Power

Reliable Security

Continuous operation powered by solar energy.

Cost-Effective

Reduces energy and installation costs.

Customizable

Tailored to fit your property needs.

Solar Street Lights: Illuminate Your Community Sustainably

Energy Efficient

Reduce power usage and environmental impact.

Long Lifespan

Built to last with low maintenance.

Versatile Application

Ideal for streets, parks, and parking lots.

UPS Systems: Protecting Your Critical Equipment

1

Trusted Partner

SCHNEIDER Electric UPS systems

2

Wide Range

600 VA to 2500 kVA capacity

3

Equipment Protection

Guard against power outages and surges

4

Business Continuity

Ensure uninterrupted operations and data safety

A high-angle, close-up photograph of a large-scale solar panel installation on a roof. The panels are dark blue with a visible grid of silver lines. They are arranged in long, parallel rows, separated by thin metal rails. The perspective is from above, looking down at the panels. In the background, other parts of the roof and some greenery are visible.
